Dr. Albert C. Hall  
Assistant Secretary of Defense (Intelligence)  
Washington, D.C. 20301

Dear Al:

Reference your letter of 11 October concerning DOD participation in studies being conducted under NSCIC auspices, I believe NSA should be represented on the task group which is reviewing the survey of current intelligence, as discussed at the recent NSCIC Working Group meeting.

The task group now includes members from State, CIA, and DIA, but in view of the large number of publications submitted for the survey by NSA, that agency really should have a member on the task group.

As the group is already in operation, it would be appreciated if your office would provide [redacted] the name of the individual selected as soon as possible.

STAT

Sincerely,

(Signed) Thomas A. Parrott
